**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I have used a competitive provider for a very long time.

They have provided superlative service for both of my two landline phones and internet connection via ethernet.

I am unable to be near wireless technology as I am electromagnetically sensitive.

Without the excellent service of my provider, I would not be able to connect to the internet, which is crucial for my tutoring business. And, I would not be able to connect with my friends and family. As a tutor, I am also on limited funds, and I truly appreciate the reasonable charges of my present provider. I cannot afford to pay for price hikes.

Competition is as American as apple pie. In this day and age, we are losing our competitive marketplace as more and more corporate entities are pushing out the smaller ones. It is causing an enormous imbalance in our economy and in our social stratification. We need to support businesses at all levels because competition is what makes everyone do their best and it makes for the most excellent service.

Please help to keep the American marketplace competitive and healthy and viable!

Kim Hahn
